

Company information

ECCE...

... that is over 200 years combined experience of three major sign companies, that are joint shareholders of ECCE International. It is the only organisation of its kind in Europe with own manufacturing plants in France, Germany and UK. More than 14-year history means ECCE knows the answer to the problems of pan European signage projects and joint-venture organisations.

Who we are

ECCE International joint shareholders are the three major sign companies Hawes Signs Limited in Northampton (UK), Rousseau SAS in Offranville (France) and Kubald GmbH in Hanover (Germany). More than 700 employees, more than 82,000 square metres of manufacturing and office area and more than 100 million € turnover are only three of our combined statistics. ECCE has own manufacturing plants in UK, France and Germany, and supply partners in LCCs (Turkey, Slovakia and China).

Where we are

The ECCE International network is all over across Europe – and the whole world – that is a geographical coverage that is the only one of its kind. Our central management of a programme from initiation to completion guarantees you an ability to supply any location efficiently and consistently.

The ECCE extensive and established installation network has over 40,000 sites installed in over 35 countries during the last decade.

Company information

Capabilities & Service

ECCE offers full service for signware and illuminated advertising – from planning to installation and maintenance, from refurbishing of existing systems to research and development into entirely new technologies.

Our project-management comprises the construction and production of our products and furthermore all tasks concerning electricity, cleaning, painting, grounding and construction works. Our success can be seen everywhere: many major brands from different lines of business – mineral oil, automotive, banking, retail and systemhospitality.

What is unique about ECCE

An ability to mobilise a lot of technical, relational, financial, organisational skills to display your image on the field at a high pace, high quality level and competitive price.

Renowned professionals you can rely on to implement your image across Europe at the standards level you expect whatever the local constraints.

A creative partner equipped to work closely with your designers to tailor a differentiating image and who will bring to you all his value engineering skills to prepare the visual identity your are dreaming of within an affordable budget.

A one point contact that will work along you and will coordinate an experienced and trained taskforce working on proven procedures, adapted to your business constraints, developed along years of practice that will ensure that your project is managed within agreed standards, budget and planning.
